Bringing over a decade of experience as a Principal Product Designer, I've led design initiatives across diverse industries, with recent focus on AI-driven vehicle technology. At Motional, I oversaw the redesign of the fleet management tool, resulting in a commercially successful product. Subsequently, I led the Remote Vehicle Assistance team, balancing project responsibilities with effective team leadership. My expertise lies in simplifying complex technical products and systems, ensuring user-friendliness through a human-centered design approach.

EDUCATION

Cornell University

Nov 2022 – Mar 2023

Leadership Essentials.

Massachusetts College of Art and Design

Sept 2011 – May 2015

BFA in Graphic Design.

SKILLS / TOOLS

Design Strategy - Design Leadership - Design Direction - User Research - Concept Testing - User-Centered Design - Design Thinking - Workshops - Agile Design Processes - Design Systems - Organization - Process Improvements - Rapid Prototyping - Design Handoff - Collaboration - Communication - User Flows - Product Design - Responsive Web Design - Application Design - Mobile Design - Figma - Photoshop - Illustrator - InDesign - After Effects - Blender - Graphic Design - Icon Design - Sketching - Painting - Photography - HTML - CSS - Javascript

EXPERIENCE

Motional • Boston, MA • 3 years 4 months

Principal Product Designer October 2022 – Present 1 year 8 months

- Led design of the Remote Vehicle Assistance app, providing users with tools to aid autonomous vehicles.
- Engaged in UX research with users to pinpoint issues and incorporate them into our roadmap.
- Held brainstorm and working sessions, in-person and remotely, utilizing Miro and Figma for seamless collaboration.
- Designed new tools to reduce the resolution time for autonomous vehicle assistance requests, hitting 98% under 45s.
- Actively collaborated with my direct report, setting an example while fostering creativity, growth, and productivity.
- Ventured into 3D application design, diving deep into 3D element usage and creation using Blender.
- Embraced Agile methodology, facilitating rapid iteration, concept testing, and swift project turnaround/development.
- Built comprehensive design systems and project handoff templates, shared across teams for process alignment.
- Facilitated seamless communication with engineering overseas by implementing new handoff processes, educating on utilizing Figma's dev mode, addressing open questions and presenting designs in our weekly team syncs.

Senior Product Designer March 2021 – October 2022 1 year 8 months

- Redesigned Motional's internal fleet monitoring application, resulting in a commercially ready product and saving \$200,000/year by eliminating previously used third-party software.
- Enhanced fleet monitoring's efficiency, allowing users to swiftly access necessary information and reducing wait times for autonomous vehicle assistance.
- Increased user traffic of the Command Center by 8x (based on Google Analytics), establishing it as an indispensable tool relied upon daily by multiple teams.
- Led and contributed to various user research studies, yielding fundamental insights utilized by Motional's teams.
- Hired and coached a junior designer to align their creative approach with the team's standards.
- Fostered a positive team culture by leading a "ways of working" session, emphasizing the significance of open and enhanced communication among team members.

EXPERIENCE CONTINUED

Accenture Digital Products • Cambridge, MA • 2 years 10 months

UX Design Lead June 2018 – March 2021

- Crafted thoughtful, strategic, and holistic user experiences across diverse industries, including Finance, Insurance, Consumer Electronics, Consumer Goods, E-Commerce, Public Sector, Healthcare, and Aerospace Engineering.
- Designed a wide range of digital assets, including mobile and desktop applications, responsive websites, icon sets, dashboards, user guides and design systems.
- Engaged with clients for various durations, participating in projects spanning from months-long engagements to rapid two-week design sprints and design thinking sessions.
- Demonstrated a commitment to continuous learning, consistently adapting to new products and industries.
- Assisted with our apprentice program, providing mentorship and guidance to aspiring designers, and coaching them on our methodologies.
- Collaborated closely with in-house developers and quality assurance testers to ensure seamless implementation of design concepts and navigate platform constraints effectively.
- Provided clients with clear and concise documentation, design systems, and handoff presentations, ensuring the effective utilization of our work.

Liaison International • Watertown, MA • 1 year 3 month

UX Design Lead April 2017 – June 2018

- Spearheaded the redesign of Liaison's applicant portal, resulting in remarkable increases of up to 71% in applications and 33% in enrollment among participating college admissions.
- Established an efficient workflow by creating our style guide, design panel, and optimizing team organization.
- Collaborated with engineers across time zones to implement new features while navigating diverse constraints.

Fidelity Investments • Boston, MA • 3 years

UX Designer (Mobile) May 2014 – April 2017

- Redesigned the Fidelity mobile app with a user-tailored financial "feed" on its landing page, a first of its kind.
- Owned and contributed to multiple sections, including the feed, quote section, learning center, and more.
- Engaged in collaborative brainstorming sessions with stakeholders to generate innovative ideas.
- Participated in UX research with a diverse range of customers, gained insights into the needs of various user groups.
- Developed intricate interactive prototypes and videos using Axure, InVision, After Effects and Principle.
- Designed for mobile and tablet interfaces across Android and iOS platforms, catering to the styles of each platform.
- Collaborated closely with engineering teams to effectively hand off designs and navigate through various constraints.

HONORS / AWARDS

Webby Awards Honoree | 2017 | **Fidelity Investments**

MITX Awards Finalist | 2017 | **Fidelity Investments**

Excellence In Action | 2016 | **Fidelity Investments**

CERTIFICATIONS

Front End Development | Oct 2018 – Jan 2018 | **GA**

Javascript Certificate | Nov 2016 | **One Month**

Certified ScrumMaster | May 2015 | **Scrum Alliance**

HOSTING EVENTS

Monthly Art Meetup 2023 – Present

I host monthly art meetups where colleagues gather to learn new forms of creativity, crafts, and design outlets.

Monthly Game Night 2019 – Present

At both Motional and Accenture I hosted a monthly board game night building community across teams.

Boston Design Meetup 2019 – 2021

At Accenture, I co-organized Practice Makes, a bi-monthly design meetup in Boston to build community.
