I'm a Principal Product Designer with 10 years of experience who's led design initiatives across diverse industries, with a recent focus on bridging the gap between humans and AI-driven vehicles. At Motional, I oversaw the redesign of the fleet management tool, resulting in a commercially ready product. Subsequently, I led the Remote Vehicle Assistance team, balancing project responsibilities with effective team leadership. My expertise lies in simplifying complex technical products and systems, ensuring user-friendliness through a human-centered design approach.

WORK EXPERIENCE

Principal Product Designer | Motional

March 2021 – Present • 3 yrs 3 mos

- Led design team that enabled remote operators in overcoming challenging AV scenarios with dynamic tools, removing the need for human intervention from the driver's seat.
- Decreased vehicle downtime by increasing agent response time through a priority based notification system and 3D visuals, resulting in 98% of cases being resolved in under 45s.
- Increased assistance coverage by designing novel response methods for agents handling emergency vehicles, traffic controllers, construction & other emerging use cases.
- Redesigned the fleet monitoring application, leading to an 8x increase in users. The redesign provided accurate and accessible vehicle status information, directing attention to vehicles in need.
- Improved dynamics on multiple teams through team building exercises, structured design handoffs, and design system creation.
- Managed one direct report while driving discovery, planning, research, delegation and execution.

UX Design Lead | Accenture Digital (Intrepid)

June 2018 – March 2021 • 2 yrs 10 mos

- Crafted thoughtful, strategic, and holistic user experiences consulting across diverse industries, including Finance, Insurance, Consumer Electronics, Consumer Goods, E-Commerce, Public Sector, Healthcare, and Aerospace Engineering.

UX Design Lead | Liaison International

April 2017 – June 2018 • 1 yr 3 mos

- Redesigned Liaison's applicant portal focusing on making information easily accessible and filterable, resulting in increases of up to 71% in applications and 33% in enrollment among participating college admissions.

UX Designer (Mobile) | Fidelity Investments

May 2014 – April 2017 • 3 yrs

- Revolutionized the Fidelity mobile app by creating the first user-tailored financial 'feed' on the landing page.
- Redesigned sections including feed, quote & learning center.
- Engaged in collaborative brainstorming sessions with stakeholders, conducted comprehensive UX research, and seamlessly collaborated with engineering teams, resulting in enhanced user engagement and intuitive user experience.

EDUCATION

Cornell University

Nov 2022 – Mar 2023, Leadership Essentials course.

Massachusetts College of Art and Design

Sept 2011 – May 2015, BFA in Graphic Design.

SKILLS / TOOLS

Design Strategy - Design Leadership - Design Direction - User Research - Concept Testing - User-Centered Design - Design Thinking - Workshops - Agile Design Processes - Design Systems - Organization - Process Improvements - Rapid Prototyping - Design Handoff - Collaboration - Communication - User Flows - Product Design - Responsive Web Design - Application Design - Mobile Design - Figma - Photoshop - Illustrator - InDesign - After Effects - Blender - Graphic Design - Icon Design - Sketching - Painting - Photography - HTML - CSS - Javascript - VS Code - GitHub

CERTIFICATIONS

Front End Development | General Assembly

Oct 2018 – Jan 2018, Part-time course in person, Boston.

Javascript Certificate | One Month: Learn to Code

Nov 2016, Part-time online course.

Certified ScrumMaster | Scrum Alliance

May 2015, Multi-day ScrumMaster training in Rhode Island.

2016, For outstanding accomplishments within UXD.

HOSTING EVENTS

Monthly Art Meetup

I host monthly art meetups where colleagues gather to learn new forms of creativity, crafts, and explore design outlets.

Monthly Board Game Night

At both Motional and Accenture I hosted a monthly board game night which built community across teams at the office.

Practice Makes

At Accenture, I co-organized Practice Makes, a bi-monthly design meetup in Boston to build Bostons design community.
